“ Miss you Adam. I keep thinking I will see you coming down the hallway, anxious to tell me your latest joke. Knowing you made me realize why I came to St. Charles each day. Your courage inspired many of us here at the hospital and you will always have a special place in my heart. Terry, Unit Secretary, PACU

“ Adam was an inspiration in seeing the world in a positive way. I'd look forward every week to seeing him walking the halls at St Charles, greeting him each time with "How ya doin Adam?" And getting the same response "F..... awesome!!!", grinning from ear to ear. He loved his kitty Eleanor, and was so proud of himself for taking such good care her. I'll always think of Adam when I see the salad bar in the cafeteria, as he would enjoy his greens for lunch after doing his PT. I miss Adam very much and feel his spirit each time I enter "his" hallway. My thoughts are with his family, and want them to know that Adam was well known and loved by many staff members. Rest peacefully Adam-you made a huge impact and continue to inspire me daily. Tracy, RN - preop holding St Charles, Bend

“ Adam was a JOY to get know and see every day as he came in to walk our hallways. I asked him at Halloween time what he would dress up as and he said "Of course the Planters Peanut Man" cause he walks with a cane...Lol After that I nick named him "The Peanut Man" and he always smiled and got a kick out of that. I will miss him sooooo much!!! I thought about him every day after the COVID 19 started and I knew he would be home alone with his kitty "Eleanor", I also always think of him when I make my coffee in the morning because he got me hooked on the Backporch Coffee! RIP sweet Adam you will be Missed Dearly! I know you are another beautiful angel in heaven and we will meet again! Sandy, Front Desk South Entrance at St Charles Hospital Bend
