“ *Betts, Now that you and Dad are together in a better place, I hope you both can enjoy the fishing, golfing, visiting family, seeing friends and all the other things you enjoyed so much, side by side for almost 50 years. Rest assured we will take care of things down here for a while. Valerie and I will look forward to seeing you when our time comes,,,,, even if we have to drive three or four days to get there! By the way, I want to thank you and Dad for showing me what qualities are important in life and for giving us the guidance necessary to know. We Miss and Love you,*

“ *How do you say goodbye When your mom passes away? When someone on whom you rely Is gone but not away. You were sisters in soul That could make low spirits rise. Youd recall the wisdom of old with sympathetic sighs. Memories will hold you close And actions will show the most Of what she left you by sharing, Holding you in good stead, daring to live on, making her proud. I miss you so much. Lets pray for one another! Love you.*
