

## Brian Dietmar Scheer

July 13, 1980 - January 12, 2026

In Loving Memory of Brian Dietmar Scheer

July 13, 1980 – January 12, 2026

Brian Dietmar Scheer, 45, passed away on January 12, 2026. Born in Carmel, California, to Annette and Dietmar Scheer, Brian was a man whose greatest pride and joy were his children and the time they spent together.

A 1998 graduate of Bend Senior High School, Brian built a career in drywall, where he was known for his hard work and dedication. However, his life truly revolved around his loved ones. He cherished every moment spent with his kids, his family, and his friends, whether they were out hunting and fishing, hitting the golf course, or gathered around the grill for a barbecue while watching a football game. For Brian, these activities were more than just hobbies—they were the ways he shared his life and created lasting memories with the people he loved most.

Brian's happiest moments outside of home were spent on the seat of his Harley. He loved the freedom of the open road and frequently took long rides to the casino.

Brian is survived by his four children, Gavin, Cassidy, Gunner, and Briar Rose; his fiancé, Jackie; his parents, Annette and Dietmar; his sister, Julie; his brother-in-law, Ty; and his niece, Harlie, and nephew, Hudson. He leaves behind a community of family and friends who will deeply miss his spirit and the love he had for his family.

A gathering to honor Brian's life will be planned for a later date.

Niswonger-Reynolds Funeral Home was honored to serve the family.

“ Many wonderful memories of Brian for me. My favorite would be at the Prineville Reservoir on his boat. He so loved driving the boat and was in his element when taking the kids tubing. Smiling from ear to ear at their successes, enjoying every minute of life on those adventures. I am so very sorry to hear about his passing. He was loved by so many and was always so kind to Carly and our family. Sending love and prayers for all of you - He will live in your hearts forever.

“ I met Brian because our kids got together briefly. We would see each other from time to time, mostly at family gatherings. We had a ritual at these parties. Some time during the day we would wonder over to the back of my car and break out the Blue Label. We would talk and laugh and enjoy each others company, then return to the party. I'd been missing him lately. Looks like that will continue. Thanks for those good times. See ya down the road.
