“ Carol, so much I could say..This girl could make you smile and laugh in any cribbage game you played against her!! I don't care if you were beating her and she was beating you(and in my case she was usually beating me), she would always have some funny witty comment to make you laugh, just made it fun all the time win or lose..What a special lady. Then i actually got lucky enough to meet her in person, she and Paul. We had a few fun meals together there in Bend. I am so very happy and honored to have had her as my friend. She is smiling down on us and in a peace and pain free, and that makes me smile back.!!
