

Timothy (Tim) Mark Schallberger

June 12, 1967 - November 14, 2021

Timothy (Tim) Mark Schallberger, age 54, of Bend, Oregon, passed away unexpectedly while doing what he loved most-riding his mountain bike on the local trails with the love of his life and wife, Anne Linton.

Tim was born in Portland, OR to Kathryn and John Schallberger. He graduated from Jesuit High School, then learned computer coding on his own. He later earned his B.S. in Information Systems from Linfield University, while working full time. He was employed as a Senior Software Engineer for Intel, where he worked for over 20 years.

Tim lived his life as if every day was a gift, after miraculously surviving an aortic dissection more than 18 years ago. He made the most of those years by pursuing his many talents and making friends with nearly everyone he met. On Sunday November 14, 2021, his aorta ruptured and he died instantly.

Tim was known for his kindness, brilliance, and quick wit-and desire to fix anything for anybody he could help.

Tim found spirituality in the outdoors, riding bikes and shooting night sky photography. He enjoyed traveling and camping with Anne and their golden retriever Pixel, and woodworking cool things from boomerangs to floors to furniture.

His photography of the northern lights was so powerful, it garnered over one million views on Flickr. During the pandemic, he used his 3D printers to make face shields for local health care workers when they were in short supply.

Tim is survived by his wife of twenty one years, Dr. Anne Linton, mother Kathryn Schallberger, sister Susan Self and niece Chloe Self all of Portland. Tim was preceded in death by his father, John Schallberger of Portland.

A celebration of Tim's life will be held on March 12th at 2 pm at the Unitarian Universalist Fellowship of Central Oregon 61980 Skyline Ranch Road, Bend and broadcast via Zoom. Registration is required for the in person event because there is a limit to the number of people and for contact tracing per OHA guidelines.

“ I did not know Tim very long. But something I remember about him is when we went shooting the night sky, I would say how it much I loved the sky and it being magical. I would hear him chuckle each time. He had a passion for it and a love for teaching others.
